

# GUIDELINES ON CERTAIN ACTIVITIES DURING THE GENERAL COMMUNITY QUARANTINE (GCQ) IN THE CITY OF TAGUIG

As per Taguig Safe City Task Force Advisory No. 18

## SAFE ZONES AND COMMON SPACES

Public and private common spaces like plazas, parks, walkways and clubhouses can now be opened subject to the strict implementation of the safety protocols prescribed by the IATF, DOH, as well as the advisories issued by the City.

However, playgrounds, basketball courts and other places of leisure will still remain closed pursuant to the IATF Omnibus Guidelines.

All individuals, who are allowed to go out to do permitted activities, may use the common spaces in public and private areas in Taguig. However, priority to use these facilities shall be given to senior citizens, children, pregnant women, and those with comorbidities.

Safe Zones are highly regulated areas where the health and safety of its users are closely monitored. Safe Zones are now defined as a specific area and/or specific time in common areas that will be for the exclusive use of Senior Citizens, children, pregnant women and those with comorbidities.

The City Government highly encourages all residents of Taguig to utilize these spaces for their own safety. But, loitering, mingling and congregating is still strictly prohibited.

*Subject to changes by the IATF, all notices and bulletins will be published at [safecity.taguiginfo.com](http://safecity.taguiginfo.com) and Safe City Taguig Facebook Page.*
