

# MESSAGE TO TAGUIG CITIZENS AND STAKEHOLDERS

Taguig City's available data on COVID-19 transmission have shown that neglect of protocols and risky behavior have resulted in new infections in the city.

The City Epidemiology and Disease Surveillance Unit (CEDSU) has observed that the following activities and areas have been cause of transmission in the city:

1. Smoking Area

2. Improper wearing of face masks

3. Pantry or dining areas in offices where no physical distancing is observed

We urge all citizens to not only observe health and safety protocols but be vigilant in helping the community curb the spread of COVID-19.
