TAGUIG SAFE CITY TASK FORCE

03 September 2020

FOR : **ALL CONCERNED**

RE: **Lifting of Localized Community Quarantine (LCQ) and Continuous Observation and Monitoring of a Workers' Quarter of a Business Establishment in Barangay Palingon**

This memorandum is in relation to the report forwarded to our office by our Taguig City Epidemiology and Disease Surveillance Unit (CEDSU) dated 31 August 2020 regarding the clustering of cases in a Workers' Quarter of a Business Establishment in Barangay Palingon.

We quote the findings of our CEDSU in their report, which states:

"On August 31, CEDSU conducted a field visit to the establishment with the following findings:

1. The lockdown was strictly enforced wherein employees were required to stay within the premises until the declaration of the lifting of the lockdown.
2. That those confirmed cases were isolated from the rest of the personnel in another barracks.
3. That from August 19, 2020, monitoring of personnel within the lockdown area recorded no additional employee/s exhibited symptoms.
4. That minimum health standards were continuously applied within the establishment.

With the above findings, we therefore recommend that the lockdown be lifted provided that the establishment continues to observe the minimum health standards required of them."

(Emphasis supplied)

As cited from the report, we note that there are no additional cases recorded since August 19. CEDSU recommends the Local Quarantine be lifted and continuous observation of minimum health standards must be done in the area, while allowing the resumption of work.

For the health and safety of all the staff in the Workers' Quarter of a Business Establishment in Barangay Palingon, as well as all the nearby areas, the Safe City Task Force hereby adopts the findings of the City Epidemiology and Disease Surveillance Unit to lift the Localized Community Quarantine with continuous observation and monitoring of the workers' quarter site.

For your information and guidance.
